

# CONCEPT AIR

WHEN LIGHTNESS DESIGNS SPACE

# CONCEPT AIR WHEN LIGHTNESS DESIGNS SPACE

At Ideal Standard, we believe that a bathroom should be a living space, giving you more than just somewhere to brush your teeth. For the past 100 years, we've been creating products that transform a purely functional space into the ideal bathroom – a place to relax, make yourself beautiful, refresh and re-energise.

Developing the design philosophy of our ever-popular Concept range, Concept Air is the next generation of a refined aesthetic that brings unprecedented elegance to the bathroom. Taking inspiration from nature, the butterfly-like weightlessness of Concept Air creates an inspiring atmosphere of lightness.

For further inspiration visit  
[www.ideal-standard.co.uk](http://www.ideal-standard.co.uk)

# FEELING AS LIGHT AS AIR

With its fine edges, crisp lines and slim, tapering profiles, Concept Air breathes an uplifting sense of lightness into any space.

Concept Air is the epitome of gossamer fineness. Its weightless beauty gives pleasure to the eye and joy to the spirit. While supremely delicate in form, Concept Air is, above all, robust and functional – performing brilliantly in the modern bathroom.

## DESIGNED BY STUDIO LEVIEN

Our ever-popular Concept range was developed by award-winning designer Robin Levien and his acclaimed team. By building on the intrinsic design DNA of Concept, they've taken a classic to the next level – creating the refined evolution we call Concept Air.

Products featured: Concept Air Cube 104cm vanity basin with dedicated furniture unit and full column unit in Gloss White with Matt Grey finish. Concept Air Cube close coupled, back-to-wall AquaBlade® WC with dual flush button cistern and thin wrap, slow close seat with quick release hinges. Concept Air free standing bath, Tesi single lever basin mixer and dual control bath filler.

# DISCOVER TWO FORMS OF LIGHTNESS WITH ARC AND CUBE

Products featured: Concept Air Arc 60cm washbasin with semi-pedestal. Concept Air Arc close coupled AquaBlade® WC with dual flush button cistern and wrap, slow close seat with quick release hinges. Concept Air left handed shower bath and shower bath screen with access panel and Concept Easybox Slim built-in thermostatic shower with Idealrain Cube M3 shower kit. Tesi single lever basin and dual control bath filler.

➤ The sweeping curves of the Arc range brings a gentle, natural fluidity to the bathroom. Thin walls and fine edges uphold Air's signature sense of lightness.

Opening a world of versatility and variation, Concept Air brings you its distinct contemporary elegance in two contrasting styles. Choose the trim, angular shapes of Cube for a sharp, minimal look. Select Arc's fine, semi-circular profile for a softer, organic effect. Create the aesthetic that suits your vision.

With its bold, square geometry, the Cube range makes a definite statement, softened with subtle curves and shallow angles.

# A LIGHT TOUCH OF SPACE

From the sculptural ceramic elements to the stylish complementary furniture, the theme of elegance is expressed in every piece. But when you select the free standing bath, you're turning your bathroom into a zone dedicated to luxury.

The combination of our open shelf vanity unit with worktop and smaller vessel basin lets you continue the luxurious look while refining it for a smaller space.

Products featured: Concept Air Cube 40cm vessel basin with 60cm wall hung vanity unit with one drawer and one open shelf in Light Brown Wood with Matt Light Brown finish and matching worktop. Concept Air back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept Air free standing bath. Tesi tall single lever basin mixer and dual control bath filler.

# CONCEPT AIR CUBE A DESIGN EVOLUTION IN FOUR FORMS

Concept Air Cube's alluringly sleek look manifests itself in four basin shapes: vanity, vessel, pedestal and semi-countertop. These distinct options are designed to offer flexibility of installation and variety in style. While each offers the same crisp elegance, each makes a decisively individual design statement.

The increasingly popular double basin format is perfect for larger bathrooms. Our 124cm double vanity basin loses none of Concept Air's characteristic elegance while offering added dimension of personal luxury. The dedicated furniture units are available with four drawers or two drawers and open shelves.

With its slim profile, thin rim and tapering form, the Concept Air Cube washbasin shows off the essence of the range's design in all its purity. But its shallow profile conceals a luxurious internal depth. Cube basins can work with full and semi-pedestals and a range of dedicated cube units for all sizes. Cube is modern elegance personified.

The unsupported overhanging bowl of the 50cm semi-countertop basin lends an additional sense of weightlessness to the overall effect. It sits within its companion piece: the floor standing semi-countertop unit. Choose from one of our complementary ranges for the perfect mixer tap, such as the Tesi mixer, shown here.

Concept Air Cube's vanity basins come in a variety of sizes and formats. They can be combined with Concept Air's tailor-made wall hung vanity units with two soft closing drawers or one drawer with open shelving for a minimal look. Flexibility is another of Air's brilliant qualities.

The Concept Air Cube vessel basin is a celebration of fine lines and fine ceramics and transforms a bathroom into a spa-like sanctuary. It's available in two sizes and can be married with the accompanying vanity units or placed on your own worktop.

Products featured: Concept Air Cube 55cm washbasin with dedicated Cube unit in Light Brown Wood and Matt Light Brown finish with single soft close drawer. Concept Air Cube close coupled AquaBlade® WC with dual flush button cistern and thin, slow close seat with quick release hinges. Concept Air right handed shower bath with shower bath screen with access panel.

Products featured: Concept Air Arc 50cm vanity basin with full pedestal. Concept Air Arc close coupled AquaBlade® WC with wrap, slow close seat with quick release hinges. Concept Air left handed shower bath with shower bath screen with access panel and Concept Easybox Slim built-in thermostatic shower with Idealrain Cube M3 shower kit. Tesi single lever basin and dual control bath filler.

## CONCEPT AIR ARC EMBRACE THE CURVE

The beautifully rounded forms of Concept Air Arc inspire a serene mood. The design language of circular, oval and shallow curves may be perfectly in tune with your interior style. Or perhaps the lack of corners could be a deciding factor for those designing smaller spaces or with bathrooms frequented by younger members of the family.

With a full pedestal, Arc basins exude slender elegance while the wall-mounted option enhances the sense of weightlessness.

# PART OF THE FAMILY

A family bathroom can be equally fun, fast and furious. Firstly, the space must perform to perfection, but there's no reason why it shouldn't be beautiful too.

The Concept Air Cube range is endlessly adaptable – by choosing the shower bath and a vanity basin, you achieve practicality and elegance in one. And the roomy drawers of the Cube or vanity units help to keep family clutter well hidden.

Products featured: Concept Air Cube 60cm vanity basin with 60cm two drawer furniture unit in Light Grey Wood. Concept Air Cube close coupled AquaBlade® WC with thin wrap, slow close seat with quick release hinges. Concept Air right handed shower bath and shower bath screen with access panel and Concept Easybox Slim built-in thermostatic shower with Idealrain Cube M3 shower kit. Tesi single lever basin and dual control bath filler.

When your walls won't take the weight, the Concept Air Cube floor standing vanity unit will save the day – a sturdy solution with spacious storage.

# EVERY STYLE ANTICIPATED – EVERY PROBLEM SOLVED

From long experience, we know that every bathroom project is unique. We recognise every challenge and anticipate every possible configuration, and we've designed our ranges to accommodate them. With countless sizes and formats to choose from, you're bound to find perfection for your space.

We are a proud member of the UK's largest furniture association. Established in 1949, FIRA ensures all of our furniture meets the highest safety and legal standards.

The wall hung vanity unit is sure to bring a sense of weightlessness to your space. The addition of adjustable chrome legs offers further stability and makes a contemporary style statement.

# THE NEXT GENERATION OF STORAGE SOLUTIONS

In so many bathroom design projects, furniture is an afterthought. But to create that beautiful streamlined look, efficient storage is a must. Concept Air offers a fully comprehensive bathroom solution. Our wide range of complementary furniture demonstrates efficiency in function, flexibility in arrangement and variety in style.

When choosing Concept Air furniture, you can specify open shelves or, to keep your space supremely calm, opt for spacious soft close drawers. Practical can be beautiful.

Products featured: Concept Air Cube 124cm double vanity basin with 120cm four drawer unit in Gloss Grey with Matt White and matching tall column unit. Tesi single lever basin mixers.

# FULLY FLEXIBLE STORAGE

Your bathroom, and the way it needs to function, is as individual as you are. A wide furniture choice is the key to making the space exactly right for you.

Concept Air offers a seemingly infinite choice of furniture formats, sizes and finishes. You can also choose between open shelving and drawers, and there's an inspirational variety of colours and finishes.

# ALL BATHROOMS GREAT AND SMALL

With a wide selection of unit sizes, Concept Air Cube will fit snugly into compact bathrooms as well as gracing the grandest of spaces.

Our mini Cube vanity basin unit is tailor-made for cloakrooms. Its large single drawer provides ample storage to keep things neat where space is at a premium.

Our column units make an elegant addition to any bathroom, and the slim design provides maximum storage where wall space is limited. The half length units expand your space-planning possibilities.

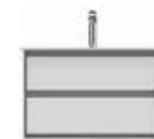

# FURNITURE COLOURWAYS

Choose from six colour combinations, from the subtle pairing of Gloss and Matt White to the exciting contrast of luscious Matt Dark Brown against Matt White.

**B2**

# THE ADAPTABLE FLOOR-STANDING UNIT

Thanks to clever synergy in the two designs, both Cube and Arc semi-countertop basins can be mounted effortlessly into our floor standing semi-countertop unit.

These smart units make a fine, practical addition to your bathroom, and their slim simplicity aligns perfectly with both Cube and Arc styles.

Products featured: Concept Air Arc semi-countertop 50cm basin with 600mm floor standing semi-countertop unit and WC unit in Gloss White front with Matt Grey interior trim, 1200mm semi-countertop worktop in Gloss White. Concept Air back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept small single lever basin mixer. Kubo 1200mm slider alcove shower enclosure with Simplicity flat top tray.

For our full range of shower enclosures and fittings please visit [idealstandard.co.uk](http://idealstandard.co.uk) or reference our Ideal Standard 2017 Collection brochure.

The floor standing units cleverly conceal plumbing as well as offering a practical storage space with an internal shelf for your cleaning products and toiletries.

↙ The semi-countertop unit is great for small spaces, condensing basin, plumbing and storage into one neat and compact piece. The adjustable shelf height lets you make the most of the available internal space.

# A LIGHT TOUCH FOR THE SMALLEST ROOM

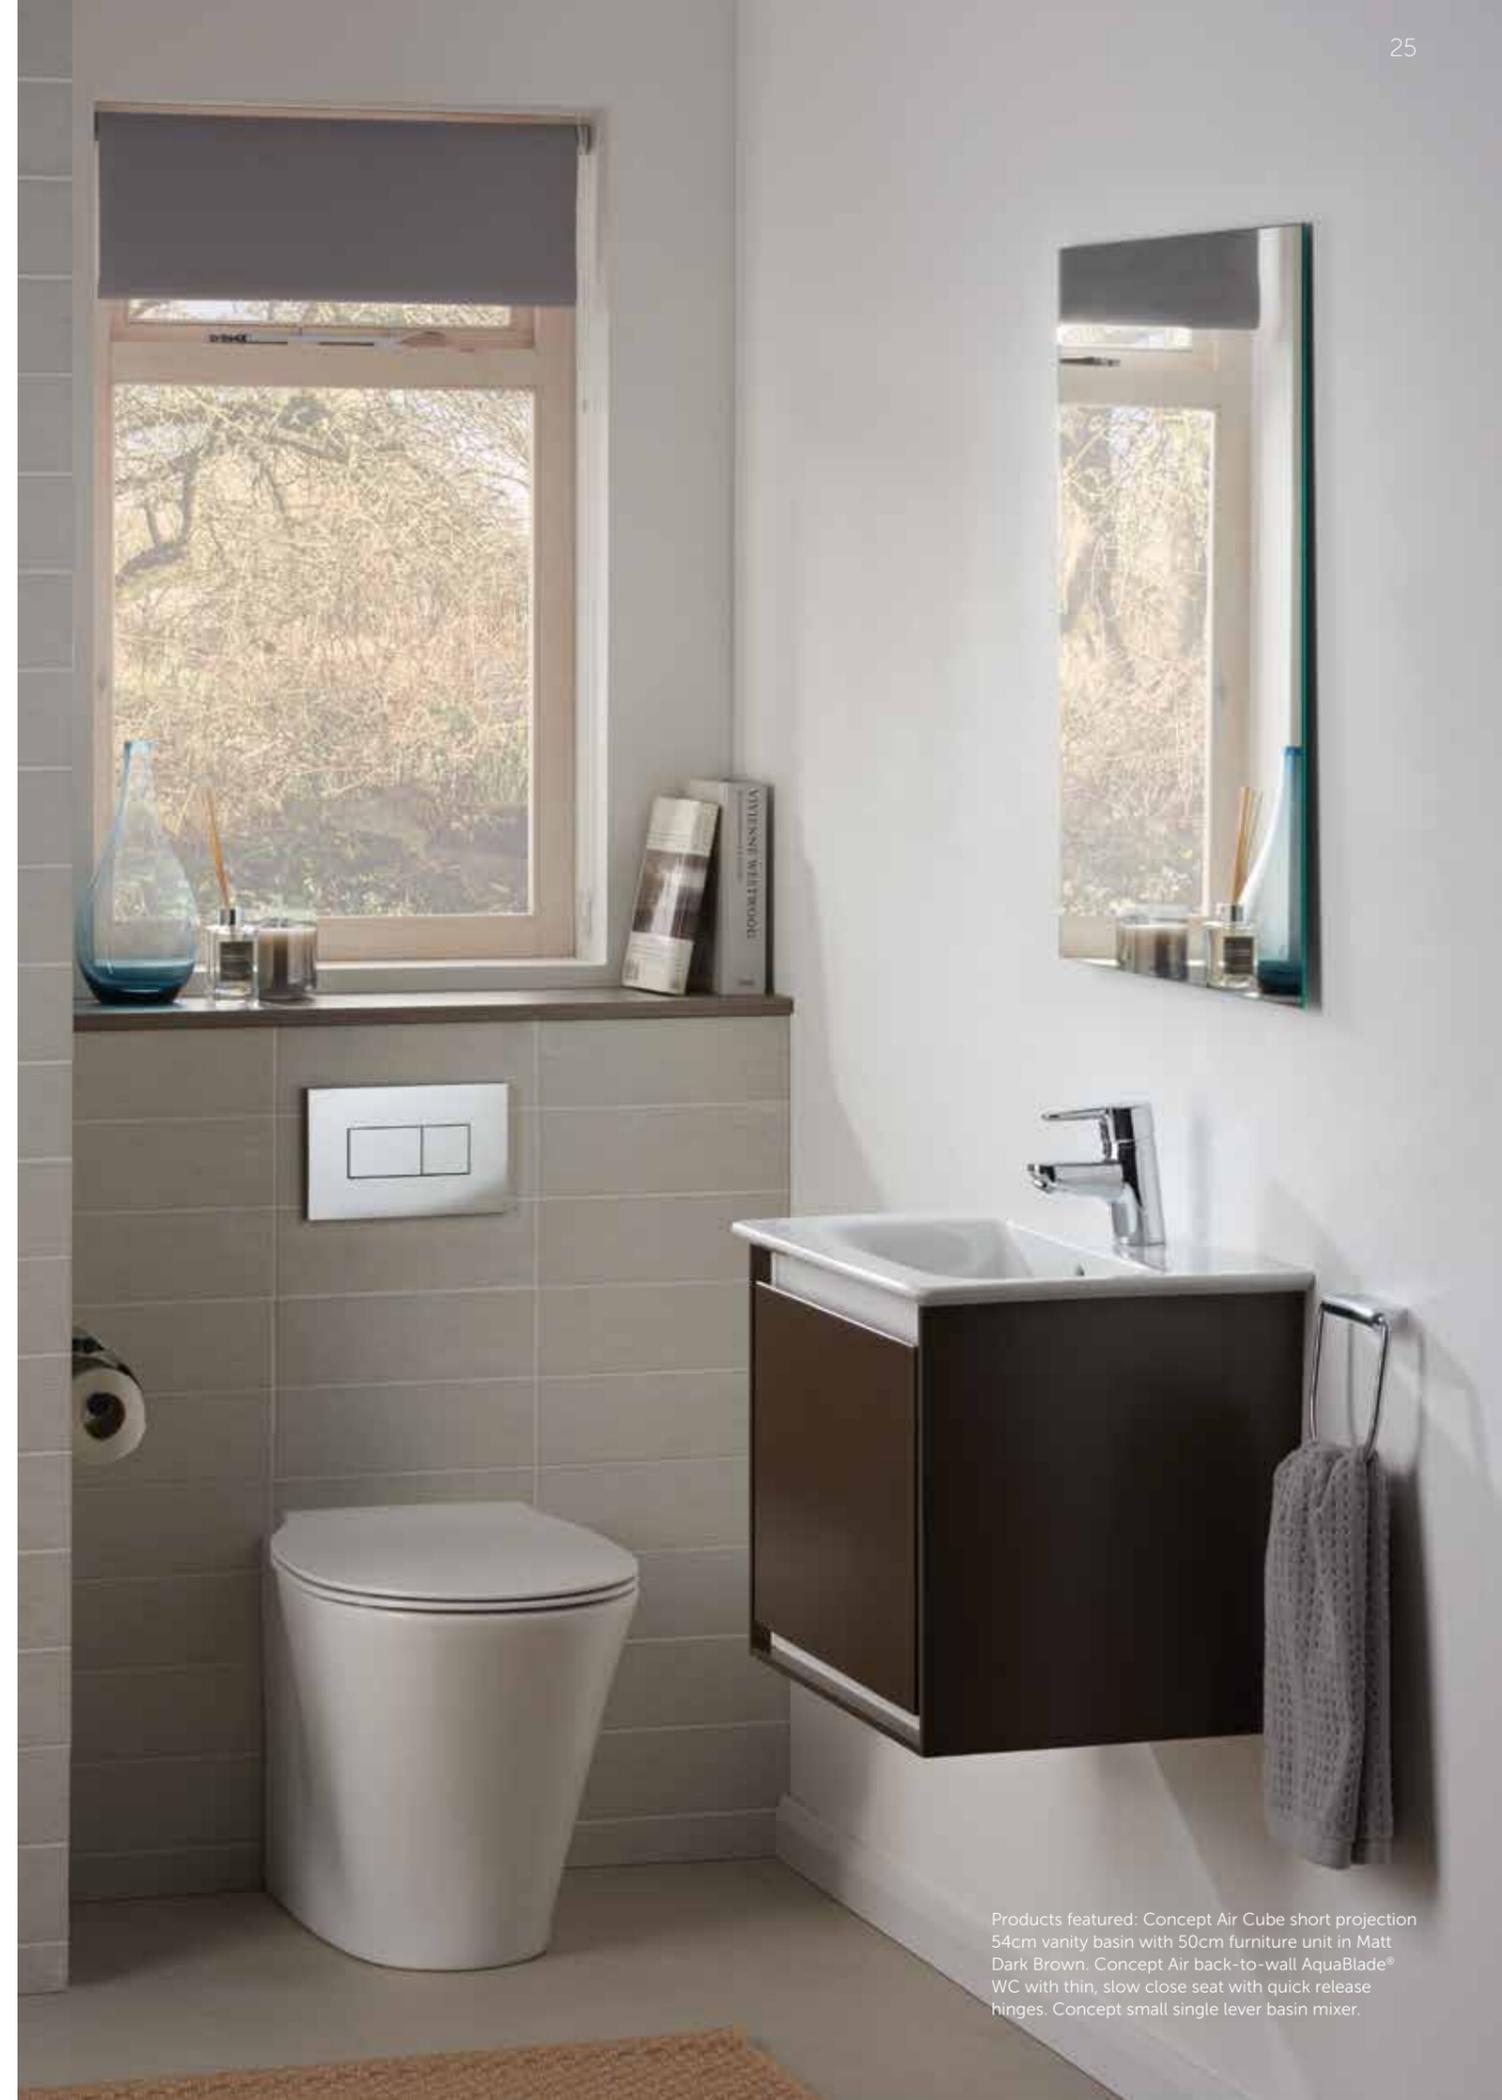

The sense of lightness that comes from Concept Air's fine lines and tapered profiles make it perfect for spatially challenging rooms, like cloakrooms.

With its accompanying Cube basin extending just 38cm from the wall, the short projection vanity unit is perfect for cloakrooms and offers a surprisingly generous storage solution.

Our small 40cm handrinse basin is an ideal solution for limited space. Take your pick from our wall hung, semi or full pedestal options, or, when storage is required, the short projection mini vanity unit with the Cube basin.

Products featured: Concept Air Cube short projection 54cm vanity basin with 50cm furniture unit in Matt Dark Brown. Concept Air back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept small single lever basin mixer.

Products featured: Concept Air Cube 60cm vessel basin with 80cm wall hung vanity unit with two drawers in Gloss White with Matt Grey and matching tall column unit. Concept Air free standing bath. Tesi wall mounted single lever basin mixer and Tesi dual control bath filler.

# MAKE A STATEMENT

Where there's room to express yourself, Concept Air rises confidently to the occasion. The free standing bath makes a stunning centrepiece, and the large vessel basin is its perfect partner.

Their soft arc tapering sides bring a quality of sculptural grace to the space. And with our vast range of furniture pieces, it's simple to achieve your optimum storage situation.

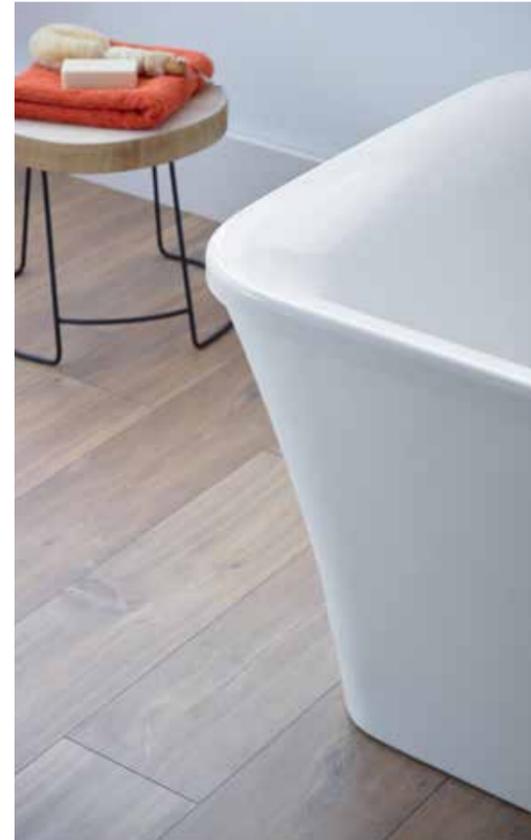

# SLIMLINE AND FREE-FORM

## INTEGRATED TAP DECK

The tap deck runs along the full length of one side, giving you freedom to position fittings as you wish as well as providing a convenient place to stand toiletries.

## CRAFTED FOR COMFORT

The gentle tapering shape of the bath provides perfect back support while the sloping rim supports the neck. And the thin rim equates to a greater internal volume for an indulgent bathing experience.

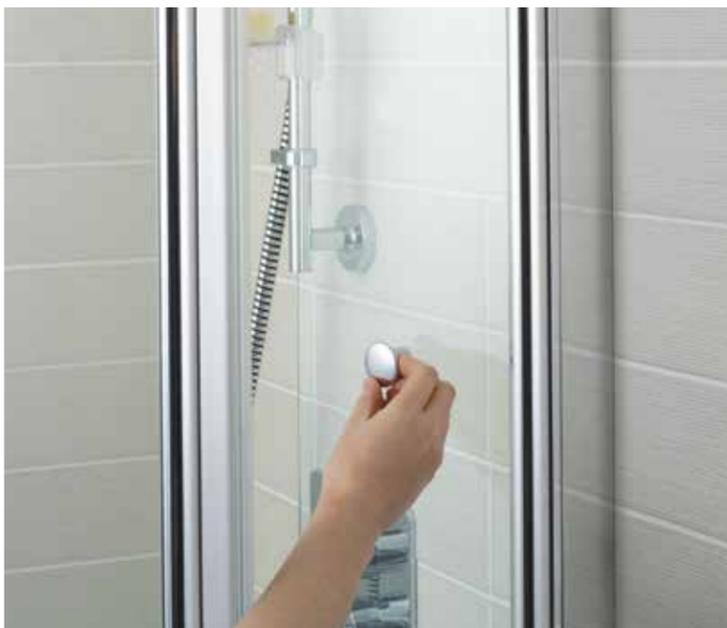

## FREE AND EASY

Free standing means you have the luxury of positioning the bath anywhere in the room, including a corner or alcove. To aid installation, the bath comes in two pieces, with the brassware and waste easily accessible.

## MULTI-FUNCTION ULTRA-LIGHT

The Concept Air shower bath is beautifully light in design while giving you all the versatility you desire, and the soft arcing backrest provides the ultimate in bathing comfort.

The sleek yet practical bath screen features a handy hinged access panel that enables you to turn on the shower before you get in, without getting wet or overreaching. And, when you've finished, it's so much easier to grab a nearby towel.

## MATCH A CONCEPT BATH WITH CONCEPT AIR

## TAPS & MIXERS TO COMPLETE THE LOOK

Add the finishing touch to your Concept Air basin and bath with taps and mixers from our Concept, Attitude, Tempo and Tesi ranges. Designed by Artefakt, the Tesi basin mixer, shown here, is an inspired fusion of geometric lines and rounded forms – the perfect match for Concept Air's elegant linear style.

As an evolution of our original Concept range, Concept Air is perfectly compatible with elements from that range, including the stylish double-ended Concept bath.

## SMART SPACES FOR ACTIVE LIVES

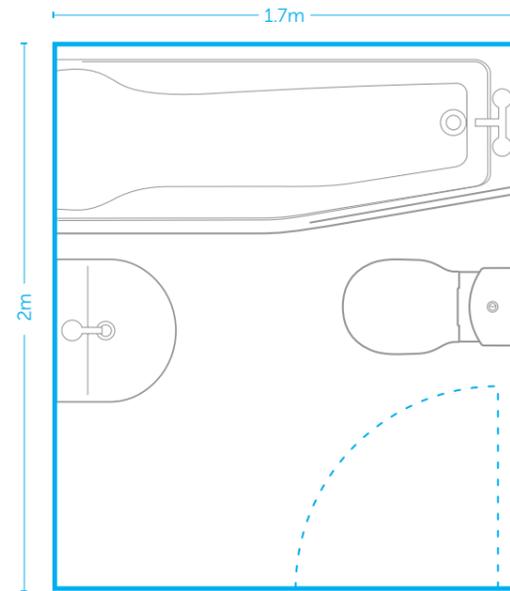

For a busy modern lifestyle, a bathroom should, primarily, be efficient. Within the Concept Air range, you'll find the products that deliver maximum functionality as well as maximum style.

Rarely have time for the indulgence of a bath? Then the shower bath is the logical solution. And if your bathroom regime is streamlined, then opt for the clean simplicity of our pedestal basin.

Products featured: Concept Air Cube 55cm washbasin shown with full pedestal. Concept Air Cube close coupled, back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept Air right handed shower bath and shower bath screen with access panel.

# BRILLIANT BATHS FOR SMALL SPACES

Planning a small bathroom is all about using space wisely. With our innovative Spacemaker bath range, you and your family could enjoy the many benefits of a luxurious, relaxing bath, even in the most compact of spaces.

Choosing a bath with a modified shape or slightly reduced dimensions is a smart way to get the most out of the available space while barely affecting the bathing experience.

➤ A bath with a small footprint may be the secret to creating a space plan that includes all the necessary components and a comfortable amount of room to move.

For our full range of space saving baths please visit [idealstandard.co.uk](http://idealstandard.co.uk) or reference our Ideal Standard 2017 Collection brochure.

Products featured: Concept Air Arc 60cm basin with full pedestal. Concept Air close coupled back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept Spacemaker bath and front panel with New Connect Angle bath screen. Concept small single lever basin mixer.

# AquaBlade®

FLUSH TECHNOLOGY

Since its launch in 2015, AquaBlade® technology has won some of the industry's most prestigious awards for its ground-breaking performance and design.

# THE FUTURE OF FLUSH TECHNOLOGY

Our Ideal Standard range featuring award-winning AquaBlade® technology sets new standards in flushing performance. Cleaner, smarter and quieter, these stylish WCs outperform all others on the market.

## CLEANER

AquaBlade® technology's optimised water pressure and smooth curves deliver outstanding levels of hygiene.

The 'microslot' channel system releases two powerful blades of water close to the top of the bowl that flush bacteria clean away. This leaves 95% of the bowl surface clean every time, compared with traditional WCs which leave 20% of the bowl unwashed. There's no unhygienic splashing, and the shape of the bowl makes it brilliantly easy to clean.

## SMARTER

The AquaBlade® dual flush system offers a more efficient use of water compared to standard flushes. You can choose between a 6-litre or a more eco-friendly 4-litre flush, helping you to save on both water and costs.

## QUIETER

The narrow AquaBlade® channel reduces turbulence, making for a much quieter flush. And with its super-smooth soft close function, the seat closes slowly and quietly too.

# AHEAD OF THE CURVE

We've embraced the elegant qualities of the original Concept range and refined them further to create an ultra-slimline style.

Combine the elegantly tapering bowl and extremely thin soft close lid with our unrivalled, hygienic AquaBlade® technology, and it's clear that Concept Air WCs are an exemplar of innovation and design. Further benefits include a choice of installation styles and seat types.

For a minimalist look, Concept Air offers back-to-wall and wall hung WCs. And, depending on your installation requirements and flush preference, concealed cistern options or support brackets can be used within the unit to mount the wall hung WC.

The Concept Air range features two close coupled WC options: fully back-to-wall or open backed, both available with Cube or Arc cisterns. The choice is down to personal preference or is dictated by installation type. The elegant cisterns feature a slim lid and dual push button. Water-saving options are also available.

## TWO SEAT STYLES

While each has its distinct style, our two different seat designs reflect the same slim aesthetic of the ceramics. Both come in standard or soft close options and benefit from an easy-take-off feature for easy maintenance and cleaning.

## ELEGANCE IN THE EN-SUITE

Complete your Concept Air en-suite bathroom with a showering solution from the Ideal Standard range.

With sympathetic styling, our collection of elegant enclosures and high-performance shower systems will fit in perfectly as well as giving you the outstanding quality and durability you expect.

Products featured: Concept Air Cube 124cm double vanity basin with 120cm four drawers unit in Gloss Grey with Matt White and matching tall column unit. Synergy wetroom panels with Concept Easybox Slim built-in thermostatic shower and Idealrain Dual Rainshower. Tesi single lever basin mixers.

Can be used with basin units for [E076601](#); [E0846](#), for [E076701](#); [E0844](#), for [E076801](#); [E0842](#).

# TESI TAPS & MIXERS

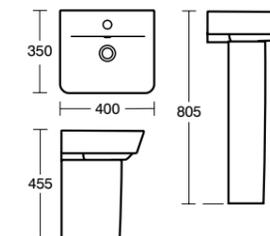

Concept Air shares key stylistic qualities with many other Ideal Standard products. We recommend the taps and mixers from our Concept, Attitude, Tempo and Tesi ranges. For example, Tesi's comprehensive range of basin and bath mixers are slim, clean and contemporary in design – perfectly reflecting the essence of Concept Air.

## Concept Air Cube Handrinse basin 40cm

Model	Ref.	Price
40cm, one tap hole	<a href="#">E076901</a>	£103.96
Small full pedestal	<a href="#">E078401</a>	£81.90

Concept Shower Bath offers you an everyday indulgence.

Each bath has a gently sloped interior and a curvaceous exterior which echoes the soft rim of the Concept Air Arc basins, making them perfect for spa-style relaxation, whilst designed to maximise showering space.

Products featured: Concept Shower bath Idealform Plus+ bath with Tesi dual control bath filler.

# BATHS FOR ALL TYPES OF TIGHT SPACES

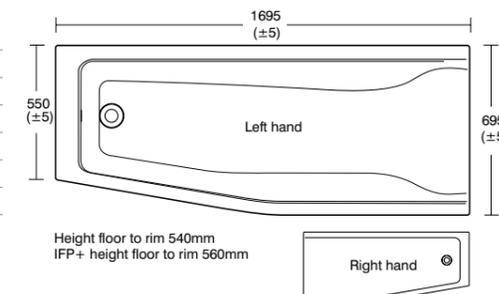

The innovative design of the Spacemaker bath combines a contemporary angular shape with an ergonomically curved internal backrest for comfort. The bath narrows at the tap end to accommodate awkward bathroom shapes and obstructive windows or the swing of the door. Available in left or right hand versions.

**Concept Spacemaker bath 170cm**

Model (no tap holes)	Ref.	Price
Right hand	<a href="#">E049801</a>	£398.29

### Guarantee

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Idealform and Idealform Plus+ acrylic baths are guaranteed for 25 years from date of purchase.
3. Showers, bath panels, furniture, mixers and taps, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website: [www.fastpart-spares.co.uk](http://www.fastpart-spares.co.uk))
4. Shower enclosures and bath screens are guaranteed for ten years and shower trays for 25 years.
5. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty.
6. Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
7. When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee.
8. The guarantee is transferable 'it applies to the product not the purchaser' provided guarantee registration details are passed on to the new owner. For full conditions, please refer to our website: [www.ideal-standard.co.uk/guarantee.aspx](http://www.ideal-standard.co.uk/guarantee.aspx).

Ideal Standard pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
