Singular™
from Ideal Standard

Ideal Standard

Through our Singular™ approach we can offer you unlimited inspirational bathroom solutions from a complete range of product categories, including taps and shower fittings, ceramics, furniture, bathtubs, trays, enclosures and accessories. It brings together design, performance, our specification expertise and the commitment to build a more sustainable future, allowing us to create inspiring solutions that meet your needs while also being mindful of the planet.

Whatever your bathroom type, design style or specific sector requirements, Singular™ offers everything to bring these concepts to life and to easily adjust them for a tailored result.

Together for better

At the heart of Ideal Standard is a strong belief that design is nothing without performance and vice versa. Only by bringing the two together, we can deliver better bathrooms and washrooms and create value for our customers.

Alongside design and performance, sustainability is a vital strand that makes up our DNA. We know that we have an important role to play in creating a better tomorrow.

That is why we have made it our mission to rethink sustainability in our operations and our products. We are committed to create solutions that help people live more sustainably without compromising on quality or experience. It is our goal as a company to minimise the impact our processes have on the environment while promoting the wellbeing of our people and the communities in which we operate.

We are extremely proud of what we have achieved until now but, perhaps more importantly, we know how far we still have to go. As we embark on this exciting journey with our employees, partners and customers, we are certain that, together, we can create a better future.

Singular™
from Ideal Standard

SINGULAR™ IS WHERE IT ALL COMES TOGETHER

From inspiration to installation, Singular is our end-to-end journey for creating integrated cross-category washroom and bathroom solutions.

It's built on our understanding of customer needs and our expertise in creating specifications. Our solutions bring together design and performance to make life easier for everyone while also being mindful of the planet.

Whether you're an architect, a specifier or a tradesperson, Singular offers a seamless journey to that one, perfect cross-category solution, incorporating products that stand out with inspirational designs, innovative technology and sustainable features.

Together for a better future

As one of the leading manufacturers in the bathroom industry, Ideal Standard has an important role to play when it comes to building a more sustainable future.

We have a strong belief that acting responsibly is fundamental to the long-term success of our business and will benefit not only our partners, customers and employees but also the wider communities in which we operate.

This is a comprehensive commitment that touches every part of our organisation, ensuring we are significantly reducing our impact on the environment, producing products that encourage sustainable living practices, focusing on ethical conduct in business and creating a workplace that is safe and equitable for everyone.

As recognition for our ongoing sustainability efforts Ideal Standard has been awarded with the Silver EcoVadis Medal for 2023, placing us in the top 25% of all companies rated by EcoVadis and the top 15% in our industry. EcoVadis the world's largest and most trusted provider of business sustainability ratings and their accreditation covers four holistic areas: environment, labour and human rights, ethics and sustainable procurement. This is a great achievement that spurs us on to continue improving good sustainability practices.

Our journey to a more sustainable future

RECYCLING AND WASTE MANAGEMENT

Reusing waste material from our own production processes has clear benefits for the environment and is an important part of our zero waste to landfill initiative. We are already recycling 100% of our brass waste and all our acrylic waste. We recycle around 70% of our ceramic waste and are working with ceramic partners to unlock new technical solutions so that 100% of ceramic waste can be utilised within the industry.

SUSTAINABLE PACKAGING

To ensure our packaging is as sustainable as possible we have set ourselves the goal to remove all single-use plastics by 2025. To achieve this we are removing all unnecessary packaging from our products, use recycled materials wherever possible and ensure our virgin cardboard is Chain of Custody-certified whenever we cannot use recycled alternatives.

WORKING TOWARDS NET-ZERO

Achieving carbon neutrality across our business is no easy feat, but it's essential for creating a better tomorrow. Over the last years we have been investing in state-of-the-art technology that either helps us to save energy or to recover it. We are switching to renewable electricity in many of our production facilities to reduce our carbon footprint and even installed a new solar campus at our German plant to generate green energy ourselves.

ETHICAL MANUFACTURING

All products our customers are buying have been produced under safe and healthy working conditions and in environments that promote diversity and inclusion. We are also very strict about who we work with and ensure all our suppliers comply with our Code of Conduct and follow a holistic sustainability path.

 **100%**
of brass and acrylic waste are recycled back into production.

 **70%**
of our ceramic waste is recycled.

 **4500+**
products covered by Environmental Product Declarations.

 **100%**
of our timber products are Chain of Custody-certified.

TRANSPARENCY AT EVERY LEVEL

We want to be transparent about our operations and products, so customers can make the choices that are right for them. That is why we have published independently verified Environmental Product Declarations (EPDs), covering more than 4,500 individual products. That is also why we joined the United Nations Global Compact, thereby committing to submit an annual Communication on Progress, as well as releasing a public sustainability report.

PROTECTING NATURAL RESOURCES

Conserving natural resources is vital to protect our planet and meet our sustainability goals. That's why we have replaced all virgin timber in our bathtubs with Bagasse, a by-product of the sugar production process.

We also ensure that all our furniture is made from wood that is sustainably sourced and comes from well-managed, Chain of Custody-certified forests. We continue to develop products that save water while offering maximum comfort.

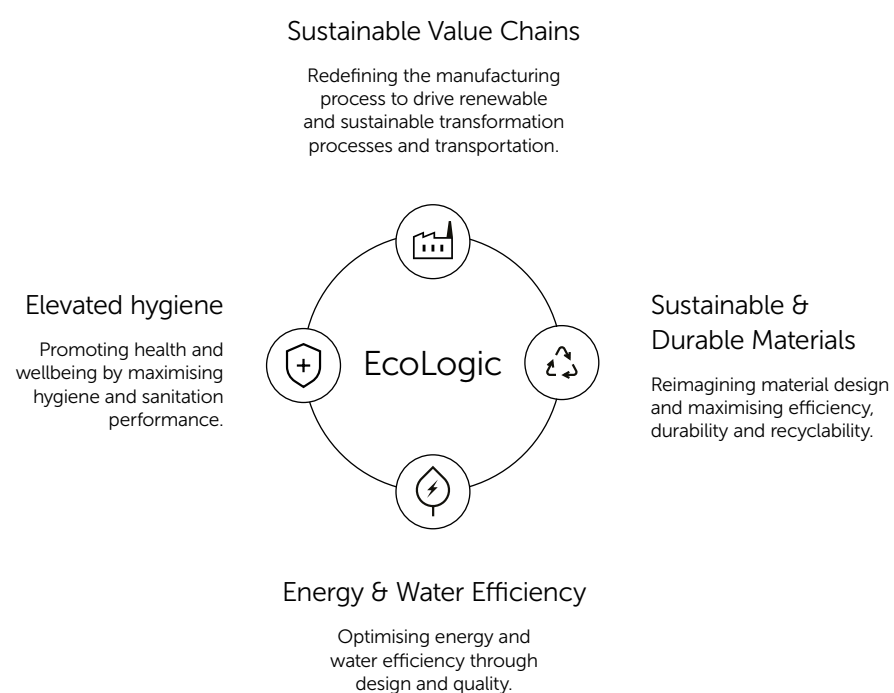

Ideal Standard EcoLogic

Making sustainability an easy choice

We want to make it as easy as possible for our customers to make sustainable choices across all bathroom categories. This requires us to rethink our production processes and reduce the ecological impact of our products over their entire lifespan.

That is why we developed EcoLogic – a new approach to product development that focuses on four values, allowing us to integrate sustainability in our manufacturing processes and our finished products.

The four values touch every phase of a product's life-cycle and focus on reducing CO₂ emissions and waste, saving energy, water and other natural resources, promoting hygiene and protecting vulnerable users.

Innovating for a better tomorrow

We strive to be leaders in performance. Whether it's excellence in comfort, safety, hygiene or durability, performance makes everything possible.

To the list can be added sustainability. By combining experience with expertise, we are able to push past limitations into new possibilities, and deliver innovations that help save natural resources, reduce our products' embodied carbon, increase their longevity and promote health.

Discover some of our performance-led innovations that help us in shaping a better tomorrow.

Diamatec® brass

Diamatec® Brass is our most advanced brassware engineering. Made possible by the development of a much stronger, corrosion-resistant zinc-copper alloy, Diamatec Brass enables Ideal Standard to create taps with optimal wall thickness, reducing raw material consumption without sacrificing durability.

While many manufacturers are yet to begin using dezincification resistant (DZR) alloys, more than 90% of our fittings are now manufactured using Diamatec Brass. Installing Ideal Standard brassware means you can support sustainability while reducing the risk of failures and leaks, even in the toughest of water conditions.

Diamatec®

The strongest foundation for beautiful design. Striving to achieve the most thin and precise designs in ceramics, Diamatec® was developed using a unique blend of alumina and chamotte. The result is a new material that allows to achieve the near impossible: highly complex and challenging designs with unprecedented strength and durability. Combined with a bold colour palette, Diamatec® enables the creation of strikingly beautiful ceramic collections.

Unprecedented strength and durability

A material that allows highly complex and challenging designs

A unique blend of alumina and chamotte.

BlueStart® iX

BlueStart® iX is the technology behind our leading-edge iX tap ranges, which offer a smart two-in-one solution, by combining the energy saving benefits of our BlueStart® technology with the hygiene and water-saving features of a touchless tap. BlueStart® iX offers significant energy savings as only cold water flows when the touchless function is used which is usually sufficient for brushing teeth, washing hands or cleaning. Additionally, it helps save water as the flow stops automatically as soon as the user removes their hands from the sensor detection area. This also reduces the need for cleaning and avoids the spread of germs by touching the tap with dirty hands.

PVD

A superior surface that withstands scratches and abrasion. Ideal Standard's range of coloured fittings uses Physical Vapour Deposition (PVD) technology to apply fine layers of metal, atom by atom. This allows us to control the composition, hardness and durability of the surface compounds that coat our expertly engineered products. Independent testing demonstrates that PVD-finished taps from Ideal Standard are so durable, they are still free from scratches and abrasion marks after 10,000 use cycles¹. And, because we offer these shades consistently across taps, showering products and accessories, there's no compromising your design vision.

¹ Result of a hand abrasion test commissioned by Ideal Standard and conducted by Tribotron AG to international standard IEC 68-2-70 which provides a standard method of determining the resistance of surfaces and materials to abrasion arising from manual operation, such as rubbing by fingertips and hands.

AquaBlade®

Silent, superior, splash-free flushing, even at low water volumes. For spaces where hygiene is paramount, and for washrooms where first impressions are essential, AquaBlade® delivers new standards in design, engineering and performance.

● CLEANER

AquaBlade® Technology ensures 95% of the surface is cleaned every time.

● QUIETER

AquaBlade® is proven to be up to 25% quieter than equivalent models.

● SMARTER

More effective and efficient use of water compared to standard flushes.

RimLS+®

With every flush, RimLS+® delivers a powerful wholebowl clean with no place for bacteria to hide. Splash-free and easier to clean, RimLS+ is the go-to solution for busy bathrooms. 88% of households would buy an Ideal Standard Rimless+ toilet. A toilet with excellent hygiene performance.*

*Result of a user survey commissioned by Ideal Standard and conducted by the institutes TCV-/isi-GmbH [n = 1,000 households with residential property – Germany n=500; Italy n=500], based on the outcome of external tests conducted by X-Tech srl for Ideal Standard measuring hygienic parameters of the toilet flush [unwashed toilet area, number of water splashes]. Scientific Supervision of User Survey: Prof. Dr. Andreas Scharf, University of Applied Sciences Nordhausen

Product Highlights

Alu⁺

SUSTAINABLE BY DESIGN

Alu⁺ is a youthful bathroom range, that stands out with its modern design, practical features and strong sustainability credentials, offering you a contemporary solution for everyday life. Available in three modern colours, a variety of models and with matching beauty bars, the collection is as creative and expressive as you want it to be.

1 GOOD FOR THE PLANET

Sustainability has been prioritised throughout the development process, with Alu⁺ created from high quality recyclable aluminium that is made up by 84% recycled content. The range is completely free from chrome and nickel and includes water-saving technology, that helps to reduce water consumption without sacrificing comfort – the flow limiters restrict consumption to just 8 l/min for the hand spray and 12 l/min for the rain shower.

2 WRAP YOURSELF IN SILK

Alu⁺ features our new SilkRain spray mode, which sees the shower system dispense ultra-fine water droplets, enveloping your entire body in a silky embrace. Switching between spray modes is simple, with an easy to adjust lever on the hand spray and the EasyDial control knob on the shower head.

3 COMPLETE THE LOOK

Alu⁺ can be paired with Cerafine O basin and bidet mixers in the same colours and style for a fully coordinated look in the bathroom.

GREEN LIVING NEVER LOOKED BETTER

Available in three low-sheen finishes – Silk Black, Rosé and Silver – Alu+ seamlessly blends long rectangular lines with perfect circles for a look that's both striking and fun.

The matching beauty bars come in three different sizes and combine practical mirrors and towel rails with smart storage spaces, perfect for smaller bathrooms.

Available in the same three colours and featuring a modern curved design, the Cerafine O basin and bidet mixers perfectly compliment the Alu+ collection.

i.life

A FULL SPECTRUM OF POSSIBILITIES

i.life is a smart, versatile collection where aesthetics, comfort and hygiene come together beautifully. The range is a true example of design that creates a backdrop to modern living; design that feels accessible and practical, no matter what size or shape your bathroom may be. The range comprises three distinct offerings: i.life B, S and A, each with their own design character and features, but all with the same spirit and energy.

1 SOLUTIONS FOR THE ENTIRE BATHROOM

i.life offers products for the entire bathroom including toilets, bidets, furniture, shower trays, shower enclosures and bathtubs. The products can be paired with the versatile Ceraplan taps or other collections from our wide fitting portfolio.

2 A MODERN GREY FINISH

i.life B ceramics are now available in a sophisticated glossy grey finish. The modern hue adds elegance and refinement to any room. Pairing the pieces with our extensive range of silk black taps, mixers and accessories results in a stylish interior.

3 SUPERIOR HYGIENE

All i.life toilets feature RimLS+ technology which delivers a powerful whole-bowl clean with no place for bacteria to hide. Additionally, the i.life B range offers selected basins, toilets and bidets with SmartGuard+; an innovative glaze that has been specifically developed for improved hygiene and easier cleaning.

Ceraplan iX

SUSTAINABLY SMART

Our Ceraplan iX range delivers a smart two-in-one solution, by combining the flexibility and control of a single lever basin mixer with the eco-friendly benefits of an infrared sensor tap. Users can benefit from both, the touchless function that automatically starts the flow of cold water and manual operation, delivering a precise temperature and volume control.

1

ENERGY EFFICIENCY MADE EASY

The BlueStart iX feature in our taps helps to avoid unnecessary energy usage through touchless cold water activation. The innovative technology can save up to 75% on warm water costs, helping to reduce energy bills while protecting the environment.

2

WATER-SAVING BY DESIGN

Ceraplan iX reduces water consumption by up to 67% thanks to its 5L/min EcoFlow regulator and the tap's built-in touchless function, making it easy to use water more consciously in the bathroom.

3

92% LESS CARBON EMISSIONS

Using less energy and less water also means reducing CO2 emissions. Ceraplan iX lowers carbon emissions by up to 92% compared to conventional mixer taps, making it the perfect choice for modern, sustainable bathrooms..

Ultra flat S+

INSPIRED BY NATURE

Featuring a natural stone textured finish, the Ultra Flat S+ shower trays add a subtle, yet distinctive look to your bathroom. Their ultra-slim profile, minimalist look and modern colour palette make them the perfect choice for a wide variety of interior styles. Thanks to its antibacterial properties and anti-slip coating, Ultra Flat S+ allows you to relax and enjoy the perfect shower experience.

1 DESIGNED TO FIT IN

At only 30mm in thickness, our Ultra Flat S+ shower trays can be fitted on top or flush with a tiled floor, giving your bathroom the seamless look of a wet room. The contemporary waste cover is available in stainless steel as well as four colours that match the trays for a sleek, seamless appearance.

2 FULLY FLEXIBLE

Ultra Flat S+ shower trays are a great choice for spaces of all dimensions. Available in 27 sizes and two shapes, this collection can also be safely cut on all four sides to fit different room features and offer more freedom for customisation.

3 MADE FROM DURABLE MATERIAL

Ultra Flat S+ shower trays are made from IdealSolid®+, an innovative and more eco-friendly material that combines crushed dolomite rock and resin made from 30% recycled content, resulting in products that are extremely robust, impact-resistant and durable. The trays are scratch and abrasion resistant and also easier to clean.

◀ GUSTO
Semi Pro
sink mixer

Gusto

A STATEMENT PIECE FOR THE KITCHEN

The Gusto kitchen taps combine a striking Italian aesthetic with performance-led German engineering, offering an elegant, versatile and premium solution for contemporary kitchens. Created with immense attention to detail and packed with innovative technology, the collection comprises a wide selection of design-led pieces that can add an extra flair to the kitchen as well as reassurances on reliability and practicality.

1 EYE-CATCHING COLOURS AND DESIGNS

Gusto mixer taps come in striking square and flowing curved aesthetics as well as a wide choice of finishes including traditional chrome and four bespoke PVD finishes, making Gusto a standout design feature for contemporary kitchen spaces.

2 A WIDE RANGE OF MODELS

For more flexibility Gusto is available in a variety of models including **semi-professional** and **professional** options as well as the **innovative iMX mixer**, featuring an integrated soap dispenser for a neater kitchen worksurface and improved cleanliness.

3 SMART FEATURES

Gusto is packed with practical features such as EasyFix+ fixation, pull-out spouts and dual spray modes, making the collection not only stunning to look at, but also simple to install and easy to use
